

# GM KEYLESS ENTRY PROGRAMMING PROCEDURE

Collect all remotes that you wish to program. This procedure will erase all previously programmed remotes. You must program all existing and new remotes that you wish to use on the vehicle at this time.

**FCC ID: LHJ011**

**Interchangeable with:** 15186201 15132197 10377295 15186203 21997127 15186200

1. Close all doors, insert key into ignition do not turn it.
2. Hold the **UNLOCK** button on the driver's side door DO NOT RELEASE until instructed to do so in step 4.
3. Quickly turn ignition from **ON** to **OFF** twice. (Do not start the car, ON is the position just before starting and OFF is where you can remove the key)
4. **RELEASE** the **UNLOCK** button. The locks will now cycle from lock to unlock signaling the vehicle has entered programming mode.

\*\*\*If the locks cycle before you release the unlock button the programming will not work and your vehicle is not in programming mode. Repeat from step one. If the locks continue to cycle before releasing the procedure is not being followed correctly or something is malfunctioning with the vehicle's keyless entry system.

5. Push and hold the **LOCK** and **UNLOCK** button at the same time on the first remote you wish to program. Hold the buttons down together until the vehicle responds by cycling the door locks (you may have to hold the buttons down for up to 5 minutes when programming a new remote – a previously paired remote will pair more quickly)

Repeat the step 5 above for any additional or existing remotes or existing that you wish to program and use on the vehicle at this time.

6. Turn the key to the **ON** position, which exits programming mode. Programming is now complete. Test all remotes.

## NEED ASSISTANCE?

PLEASE MAKE SURE YOU HAVE FOLLOWED THE PROCEDURE EXACTLY THEN EMAIL OUR TECH SUPPORT WITH YOUR YEAR MAKE AND MODEL AND THE PROBLEM THAT YOU ARE EXPERIENCING. TECH SUPPORT WILL REPLY AS QUICKLY AS POSSIBLE.
