

Procedure #1

Vehicle must have a driver information center. Vehicles equipped with driver information center will have button on the steering wheel with an "i" symbol .

1. Insert key into ignition and turn it to the on position. Do not start the car.
2. Press the Information button until Relearn Remote Key is displayed.
3. Press the set/reset button (will have checkmark on button) until Remote Key Learning Active is displayed.
4. Press and hold the Lock and Unlock button until vehicle chimes twice this signals successful programming. **Repeat step 4 for any additional new and existing remotes so they will all work on this vehicle.**
5. Turn key to the off position which will exit programming mode.

Procedure #2

Vehicles without the information center

1. Insert key into the ignition and turn it to the On position. Do not start the car.
2. Press the trip odometer reset button until Relearn Remote Key is displayed.
3. Hold the trip odometer reset button until Remote Key Learning Active is displayed
4. Hold the lock and unlock buttons on the remote being programmed until the vehicle chimes. This signals successful programming. **Repeat step 4 for any additional new and existing remotes so they will all work on this vehicle.**
5. Turn key to the off position which will exit programming mode.

*****IF ANY OF YOUR REMOTES STOP WORKING AFTER PROGRAMMING SEE STEP 4 YOU MUST PROGRAM ALL REMOTES IN STEP 4!**
